SUPPLEMENT TO
REPORT NO.

The Litostroy industrial plant in Ljubljana has been unable to resume production, or is producing only to a very limited extent, because the necessary machine tools have not been forthcoming from Czechoslovakia. This factory was to have produced turbines, pumps and other machinery for exploiting water power; it was not to have engaged in producing war material. Large workshops have been constructed, but the machinery is lacking to start operation. Some machine tools were received recently, but it is not known for what purpose they are to be used.
